

Healthy Rewards Referral

Last year's Health Visit Form will now be available as a referral order. By placing an Ambulatory Referral to Healthy Rewards, the annual enrollment form or alternative goal form can be completed through order questions. Lab results will also populate in the order if available.

Try It Out

1. Place an Ambulatory Referral to Healthy Rewards order. View recent results populating from the last 4 weeks. Select the reason for the referral.

Labs:

I agree that if my patient's labs meet the chronic condition criteria listed above, they will be placed in the appropriate chronic track by Wellness staff.

I authorize my patient to join the applicable physical activity and/or chronic condition program to help maintain or improve their health status.

3. Additional order questions may appear with each selection.

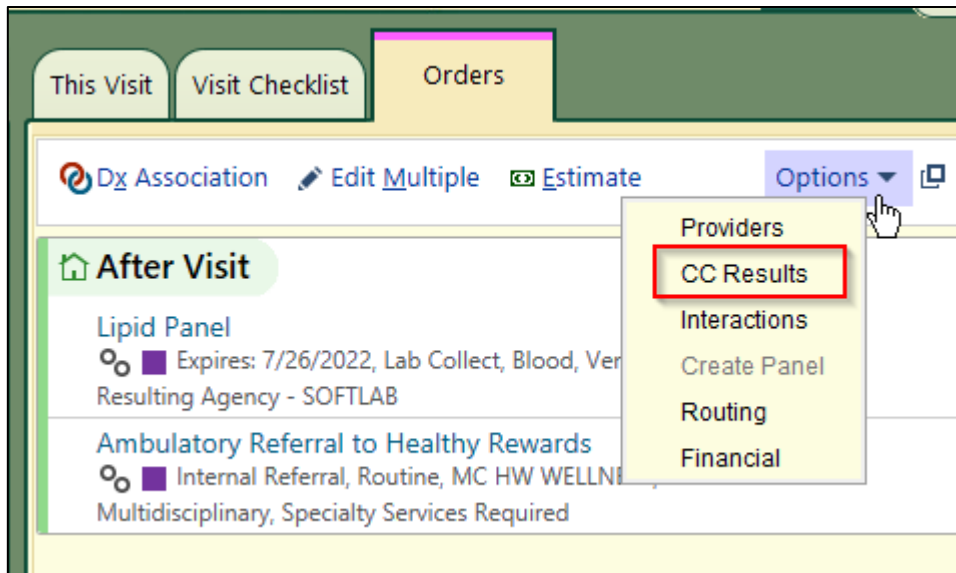

Hypertension (Check Yes if BP \geq 140 and/or \geq 90 OR taking medication to treat hypertension)

If yes, HTN history New diagnosis On medication

4. If all labs required for Healthy Rewards enrollment have not been completed, select "Labs will be CC'd to Healthy Rewards following completion".

Labs:

5. After entering the additional lab orders, open options within the order window and select “CC results”.

6. Within the CC results window, select the lab orders to send results. Enter “P Healthy Rewards” in the CC recipients to send results to the Healthy Rewards Support Pool. Accept to close window and complete signing workflow.
